1. Enable Pop-Ups

Pop-ups are additional windows that open when you are browsing the internet. Many times, they can be annoying advertisements that appear automatically without permission. To stop that, internet browsers have added security features that disable pop-ups.

Pop-up are used by legitimate sites, such as banks and TDA, to display individualized information. The DC and DV sites use pop-ups to display content such as response files. You can adjust your browser settings to allow for pop-ups for only certain sites.

1.1 Enable Pop-Ups in Chrome

- Touch the menu ☰ on the right> *Settings*
- Select *Show Advanced Settings* at the bottom
- In the Privacy section, select *Content Settings*.
- Scroll down to find Pop-up. Select *Manage Exceptions*.
- Enter texasagriculture.gov in the field box and select *Allow*.
- Select *Done*.
- Select *Done* again.
- Close the browser tab.

Currently, there is no other way to manage the allowed sites for Microsoft Edge.

1.2 Enable Pop-Ups in Firefox

- Select the menu button ☰ on the right and choose *Options*.
- Select the *Content* panel.
- Select *Exceptions* in the Pop-ups section.

- Enter texasagriculture.gov in the *Address of website* field at the top and then click *Allow*.

1.3 Enable Pop-ups in Internet Explorer

Click on the Gear button in the top right corner of the screen.

Select *Internet Options*.

Click on the *Privacy* tab.

Select Settings in the Pop-up Blocker section.

Enter texasagriculture.gov in the field *Address of the website to allow*. Select *Add*.

Select *Close*.

Select *Apply* on the Internet Options dialog box.

Select *OK* on the Internet Options dialog box.

1.4 Select *Save Changes*. Enable Pop-Ups in Microsoft Edge

Microsoft Edge will display a notice at the bottom of the screen that a pop-up has been blocked with the option to allow once or always allow.
