Introduction

Welcome to the Texas Unified Nutrition Programs System (TX-UNPS) user manual for the School Nutrition Programs module. TX-UNPS is a web-based software solution that provides administrators, state users, and Contracting Entities with efficient and immediate access to applications, claims, and related nutrition program functions.

Website Benefits and Features

TX-UNPS is a user-friendly web application that allows authorized state agency personnel, Contracting Entities, and Education Service Centers (ESC) to submit and approve application, claims, and miscellaneous forms via the Internet. Key system features include:

- A software system that manages information regarding Contracting Entities, applications, claims, and reports.
- A single integrated database which serves all child nutrition programs.
- The ability to save partially completed forms on-line, allowing the user to complete the process at a later time.
- Individual User IDs and passwords for secure login to program functions and accurate tracking of user behavior.
- A robust security module that streamlines security setting controls by enabling administrators to easily assign users to numerous pre-defined groups and eliminating the need to manually set each user's security access.

User Manual

This user manual is intended for use by authorized state users that administer the School Nutrition Programs. It is designed to provide a general understanding of how to use the system in an effective and efficient manner. This manual will provide:

- A general explanation of each feature available.
- Screen examples of web site pages and forms.
- Step-by-step instructions for utilizing the web site features.
- Tips and notes to enhance your understanding of the system.
Getting Started

Before you can begin using TX-UNPS administrative modules, you must be assigned a user ID and password by the TX-UNPS Help Desk that provides the required security rights. Once this setup is complete, you may use the Internet and your assigned user ID and password to access and log onto the TX-UNPS web site.

Accessing the Website

You can access TX-UNPS from any computer connected to the Internet by opening your Internet browser and entering the following URL in the browser’s address line:  http://txunps.texasagriculture.gov/
The TX-UNPS project page displays. Click the “Continue to TX-UNPS logon page” link to log into TX-UNPS.

TIP: You can add this URL to your browser’s FAVORITES list or create a shortcut to the web site on your desktop for quicker access to the site. Refer to your browser or operating system help files for further information.
About the TX-UNPS Home Page

The TX-UNPS Home Page consists of three major sections:

- Bulletin Board.
- Log on.
- Links.

Bulletin Board

The bulletin board is managed by TDA and provides general information. It is important to remember that the bulletin board on the home page is viewable by the public.

Log On

The log on section is where authorized users enter their User ID and password. If users have forgotten their password, they can request a new temporary password be automatically generated by TX-UNPS and e-mailed to the email address associated with their profile.

By selecting the Forgot Your Password? Link, users are transferred to the Password Reset screen. By entering their User ID and the email address associated with their security profile, TX-UNPS will automatically email a temporary password. This email will be from TX-UNPS Help Desk (squaremeals@TexasAgriculture.gov). Users should check their spam filter if they do not receive the message.

**Note:** You should enter the email address associated with your Security Profile. This may not be the same as the email addresses specified on the Contracting Entity applications. If you are having any issues, please contact the TX-UNPS Help Desk.
Once users receive the email and log into TX-UNPS with the assigned temporary password, you will be taken to the Change Password screen to create a new password.

**Note:** Security configuration settings require a password ten (10) to twelve (12) characters in length. Please note that the password must be at least ten (10) characters in length. The password must contain at least one number, one letter, and one special character (e.g., !, ?, /). Passwords are case sensitive.

### Links

The links section provides access to websites and additional information:

- Selecting the **Need Help?** link will transfer the user to a webpage that contains the TX-UNPS User Manuals and other program resources (ex. Administrator’s Reference Manual and Handbooks). The user can also send a support request or request a User ID and password.
• Selecting the **Interested in Applying?** link will transfer the user to a webpage that provides additional information on the nutrition programs offered and allow the user to submit a request for an application.

• Selecting the **TX-UNPS Project Website** link will transfer the user to the project’s website.
Logging On

To log on

1. Access TX-UNPS by typing the URL into the address line of your web browser.
2. Enter your assigned User ID.
3. Enter your Password.
4. Select Log On.

Note: If you do not have a User ID and Password, contact the TX-UNPS Help Desk.

TIP: The Password is case-sensitive, so be sure to use upper and lower-case letters, if necessary.

To change your password

If this is your first time logging on, the system will automatically require you to change your password.

1. Select a new password and enter it into the box provided.
2. Re-enter your new password for confirmation.
3. Select Save to continue to the TX-UNPS Programs page.

Note: Security configuration settings require a password ten (10) to twelve (12) characters in length. Please note that the password must be at least ten (10) characters in length. The password must contain at least one number, one letter, and one special character (e.g., !, ?, /). Passwords are case sensitive.
TX-UNPS Content Overview

Once you are logged in and have selected a Contracting Entity, the top portion of the TX-UNPS application contains key elements that provide basic information about your location within the system and the selected Contracting Entity.

**Note:** For security reasons, the system will automatically log you out after twenty (20) minutes of inactivity.

**School Nutrition Programs User Manual**
**Screen Options**

Data entry screens in the system offer the user some or all of the following options: **VIEW, MODIFY, DELETE, and INTERNAL USE ONLY**. The Screen Options area is located on the top right side of the screen, directly beneath the colored bar.

![Screen Options - Example](image)

The following table describes each of the possible screen options:

<table>
<thead>
<tr>

<tbody>
<tr>
<td><strong>VIEW</strong></td>
<td>Presents the screen information in ‘view-only’ mode. In this mode, the user cannot modify any data.</td>
</tr>
<tr>
<td><strong>MODIFY</strong></td>
<td>Presents the screen in ‘modify’ mode. In this mode, the user can modify field data and save the data after pressing the save button at the bottom of the screen.</td>
</tr>
<tr>
<td><strong>DELETE</strong></td>
<td>Deletes the current record displayed on the screen. The user will be presented with a confirmation screen to validate that they intend to delete the record.</td>
</tr>
</tbody>
</table>
| **INTERNAL USE ONLY** | This option is only available to authorized State users only.  
This is available for screens that have an Internal Use Only section, which is typically at the bottom portion of the screen. Selecting this option will result in the fields in the Internal Use Only section to become editable. |
Once you successfully log on, the TX-UNPS Programs page is displayed. Actual access to specific modules is based on the user’s security rights.

**TIP:** The Accounting, Maintenance and Configuration, and Security tiles are always gray because these are administrative modules that are available to only authorized State users. Contracting Entities and ESCs will not have access to these modules. Only select authorized State users will have access to these modules.

School Nutrition Programs menu options

From the School Nutrition Programs home page, you can select a menu item from the blue menu bar at the top of the page. The School Nutrition Programs menu bar contains menu items specific to the School Nutrition Programs. The table below describes the features available for each menu option, which the remainder of this manual will discuss in detail.

Please note: individual users may have varying menu options due to the user’s security configuration.

  - Change Password (authenticated user changing their password). |
| Search | Access to the Contracting Entity Search screen (State users, ESCs and Contracting Entity users with access to more than one Contracting Entity.). |
Error Processing

All information entered and saved on the system is verified to ensure it conforms to data entry guidelines and system rules. The site performs two types of checks on information entered: Input Edits and Business Rule Edits.

**Input Edits**

Whenever you save information or proceed to a new screen, the site checks for input errors. These errors may include entry errors such as an invalid data entry (such as entering a 4-digit Zip Code), or a non-logical entry (e.g., entering a greater number of eligible than enrolled children).

If a form contains an input error and the user selects Save, the screen either displays the error code and description in red at the top of the page (and the error code is a letter) or displays a message next to the field in error. Input errors must be corrected before you can proceed. The system will not save data entered on a screen that contains an input error. The user must correct the input errors and select Save again.

![Figure 8: Examples of an Input Error (Partial Screen)](image)

**Business Rule Edits**

Business rule edits are used to ensure that entered data on a form conforms to state-defined guidelines/requirements and federal regulation. Once the user initiates a save, TX-UNPS will perform business rule edit checks after all input errors have been corrected and display a confirmation screen stating that data entered has been saved and identifies whether errors exist.
The user may correct business rule errors immediately or at another time. The entered data will not be lost. The errors will display at the top of the screen with an error code (usually 4-5 digits) and error description. Business rule edits do not prohibit the system from saving the data entered on the screen.

![Figure 9: Example of a Business Rule Error (Partial Screen)](image)

In addition, business rule edits have an error severity that indicates whether an error is considered an Error or a Warning. Errors appear in red and must be corrected before the form can be submitted. Warnings appear in blue and indicate an “out of the ordinary” data value. Warning errors do not need to be corrected prior to form submission.

![Figure 10: Example of a Warning Error](image)
Selecting a School Year

Information for Contracting Entities and sites is displayed based on the selected school year. Upon logging on to the system, the “active” school year is the default selection and displays in the top-right corner in the blue bar. In order to view information from a prior year, you will need to change the school year.

**Note:** A Contracting Entity will be unable to select a new year if they have not been granted the security right. Contact the TX-UNPS Help Desk and request access to the *Select Year* security right if you think this is in error.

To select a school year

1. Select **Year** on the blue menu bar at the top of the page. The Year Select screen displays.

2. Select the year.

   **Note:** The selected year is indicated by `<Selected`.

3. Use the menu bar to return to your task in the program.

**TIP:** The ability to view and/or modify a school year is controlled by the State’s system administrator. It is important to note that a school year may be set as “view only” to the Contracting Entities and “modify” to authorized State users.

![Figure 11: Year Select Screen](image-url)
Contracting Entity Search

Note: If you are associated with only one Contracting Entity, you will be unable to access the Contracting Entity Search screen. The system will always default to the Contracting Entity’s data.

For most School Nutrition Programs functions, you must search for and select a Contracting Entity using the Contracting Entity Search function before beginning any task. When the Contracting Entity Search screen displays, you can search for the Contracting Entity using all or part of the Contracting Entity’s ID, Name, or any other combination of parameters provided on this screen.

To search for a Contracting Entity

1. On the menu bar, select Search. [If the Contracting Entity Search screen is already displayed, begin at Step 2.] The Contracting Entity Search screen displays.

2. Enter search parameters (see table for additional information on using the search parameters).

3. Select Search.

4. Select the Contracting Entity you wish to access.

TIP: The Contracting Entities List displays based upon the search criteria entered. If no selections were made, the list displays all available Contracting Entities with the designated status (default is “Active”). To display all Contracting Entities, leave all search parameters blank and select Search.

Figure 12: Contracting Entity Search Screen

Note: Users will only see Contracting Entities associated with their user account (e.g. ESC users will only see Contracting Entities in their region).
The search parameters follow a specific set of rules. These are described in the following table.

If the type of search is identified as “includes”, the system will search for any Contracting Entity that includes the parameter in any portion of the selected field. For example, if the user entered “386” in the CE ID parameter, the system will retrieve Contracting Entities with CE IDs of “00386” and “01386”.

If the type of search is “exact match”, the system will search only for any Contracting Entity that exactly matches the parameter. For example, if the user selected “Collin” in the County parameter, the system will retrieve all Contracting Entities associated with the county of Collin.

<table>
<thead>

</tbody>
</table>
If the “Search all available Programs” checkbox is checked, the results display changes in appearance. The system will ignore all search criteria except for the CE ID and Contracting Entity Status. If the Contracting Name is entered, and no CE ID is entered, the system will ignore all search criteria except for Contracting Entity Name. If no parameters are entered, the system will retrieve all Contracting Entities in all programs.

Applications

Now that you know how to access and log on to TX-UNPS, the remainder of the manual will explore the functions of the School Nutrition Programs module. Let’s first look at the Applications component of TX-UNPS, where users manage yearly enrollment of Contracting Entities and sites and complete the appropriate forms required by the TDA.

About the School Year Enrollment Process

In order to participate in the School Nutrition Programs, Contracting Entities must submit an Application Packet to the State for review and approval. Before beginning the Application Packet, Contracting Entities must select the “Enroll” button on the Application Packet screen and click “Yes” on the subsequent confirmation screen. After a Contracting Entity is enrolled, they must complete all required applications and forms in the Application Packet for the school year.

Figure 14: Enrolling in a New Program Year

A new Application Packet must be submitted and approved at the beginning of each year. For Contracting Entities that are completing this process as part of their “annual update,” certain information from the previous year’s applications rolls over into the new program year. The Contracting Entity may modify this data for the new program year or leave the data as it is presented (and as was recorded in the previous year).
Submitting an Application Packet

The Contracting Entity can submit the Application Packet to the State once all required applications, online forms (e.g., Food Service Management Company contract), and supporting documents identified on the checklist are completed and saved without errors.

In order to be able to submit an Application Packet, the packet must contain:

- A completed Contracting Entity Application with no errors.
- At least one completed SNP Site Application with no errors.
- All items in the Checklist are identified as submitted to TDA.
- If the Contracting Entity had identified that they would be using a Food Safety Management Company on their Contracting Entity Application, the packet must contain at least one Food Service Management Company contract with a status of “Submitted”.

Once the Application Packet has been submitted to the State for approval, the packet history section of the Application Packet screen will display the event and the packet status changes to Submitted for Approval.

Application Packet

In order to participate in the School Nutrition Programs (SNP), Contracting Entities must submit an Application Packet to the State for review and approval. At the beginning of each program year, Contracting Entity data is rolled over and must be verified by Contracting Entities prior to submitting any claims.

The Application Packet contains the Contracting Entity application, site application(s), and other forms required as a part of the packet. After selecting Application Packet from the Applications menu, each required packet item and its status displays. If any packet item requires attention (such as an error within a form or a checklist item needs to be completed), a red arrow displays next to the Application Packet item. If the Application Packet item has been completed correctly and contains no errors, a green check displays next to the Application Packet item. For more details, see Reviewing an Application.

Note: Contracting Entities may not submit claims until their Application Packet has been approved for the respective program year.

Note: Once an Application Packet has been approved, when a Contracting Entity revises any item within the Application Packet, the Application Packet must be re-submitted for approval.

To access the Application Packet

1. On the blue menu bar, select Applications. The Applications menu screen displays.

2. On the menu, select Application Packet. If necessary, search for and select a Contracting Entity. The Application Packet screen displays.

3. Select the packet item you want to access.

Figure 17: Application Packet Screen
Contracting Entity Application

The Contracting Entity Application screen provides access to the Contracting Entity’s annual application for the School Nutrition Programs for both new and renewing Contracting Entities. The Contracting Entity is required to complete a new Contracting Entity application annually; however, the State has identified select Contracting Entity data that rolls over from the previous year and pre-fills a new year’s application.

To view a Contracting Entity application (Original)

1. On the blue menu bar, select Applications.

2. From the Applications menu, select Application Packet. The current year’s Application Packet screen displays.

3. Select View next to the Contracting Entity Application packet item. The Contracting Entity Application for the designated school year is displayed.

   **Note:** If there are multiple versions of a Contracting Entity application within the system (i.e., revisions exist), the system defaults to the version with the most current Application Effective Date designated on the Contracting Entity Application’s Internal Use Only section.

To view a Contracting Entity application (Revision)

1. On the blue menu bar, select Applications.

2. From the Applications menu, select Application Packet. The most current year’s Application Packet screen displays.

3. Select the revision link under the Latest Version column. The Contracting Entity Application History for the designated school year is displayed.

4. Select the application version you would like to view.

   **TIP:** The View option appears in two situations: 1) If the user only has view-access security rights or 2) If the user has modify-access security rights BUT the Application Packet has been submitted to the State and is under State review and therefore can no longer be modified.

To add a Contracting Entity application (New Contracting Entity)
1. On the blue menu bar, select Applications.

2. From the Applications menu, select Application Packet. The most current year’s Application Packet screen displays.

3. Select Add next to the Contracting Entity Application packet item. The Contracting Entity Application for the designated school year is displayed.

4. Enter required information.

5. Select Save. A confirmation screen displays.

6. Select <Edit to return to the Contracting Entity Application screen.

-OR-

Select Finish to return to the Application Packet screen.

**TIP:** The Add option only appears for new Contracting Entities. If a Contracting Entity had an application in the previous year and has elected to enroll in the new year, the prior year’s application information is rolled over into the new year’s application as a starting point. The user would select Modify to review and update this information.

---

**To modify a Contracting Entity application**

Checklist

A checklist is automatically generated based upon answers to specific questions from the Contracting Entity and site applications. The checklist identifies supplemental documents that need to be submitted to the state. The Checklist feature allows Contracting Entities to keep track of documents and their dates of submission. State users use this feature to identify when documents have been received and to denote the status of the documents.

To access a Checklist

1. On the blue menu bar, select Applications. The Applications menu screen displays.

![SNP Checklist Summary](image)

Figure 27: Checklist Summary Screen

To view a Checklist

1. On the blue menu bar, select Applications. The Applications menu screen displays.
4. Select the Contracting Entity or Site whose checklist you wish to view. The Checklist screen displays.

**Note:** Only Contracting Entities and sites who have completed their applications and who have additional required documents will have a checklist.
To update a Checklist

1. On the blue menu bar, select Applications. The Applications menu screen displays.

4. Select the Contracting Entity or Site whose checklist you wish to update. The Checklist screen displays.

5. Identify whether the document has been submitted and the submission date. The Date Submitted to TDA field automatically defaults to the system date. This can be changed by the user. A checklist is not considered complete until all checklist items are identified as having been submitted to TDA.

To upload an attachment to a Checklist item

**Note:** If the checklist item has a paper clip icon next to it, you can upload an attachment. Files in the following formats can be uploaded: .doc, .xls, .pdf, and .jpg.

1. Select the paper clip. The Checklist File Upload Details screen displays.

Direct Certification/Direct Verification

The Direct Certification/Direct Verification provides authorized users access to the Direct Certification/Direct Verification system from within TX-UNPS.

To access Direct Certification/Direct Verification

1. On the blue menu bar, select Applications. The Applications menu screen displays.

2. On the menu, select Direct Certification/Direct Verification. The Direct Certification/Direct Verification screen displays.

3. Select the <Back button to return to previous screen.

![Figure 32: Direct Certification / Direct Verification Screen](image)

Note: By selecting the Direct Certification / Direct Verification link on this screen, a new browser window will open providing access to the Direct Certification/Direct Verification system.

The screen will not open if you have a pop-up blocker running on your system. If this occurs, hold down the CTRL key and select Direct Certification / Direct Verification again.

Your TX-UNPS browser session will remain active until the system times out (i.e., 20 minutes). If using the Direct Certification/Direct Verification system takes longer than 20 minutes, you will need to re-login to TX-UNPS.
Download Forms

The Download Forms function allows users to view, download and/or print all forms and documents made available on the site by the State.

To access Download Forms

1. On the blue menu bar, select Applications. The Applications menu screen displays.
2. On the menu, select Download Forms. The Download Forms screen displays.

To download or view a form

1. On the blue menu bar, select Applications. The Applications menu screen displays.
2. On the menu, select Download Forms. The Download Forms screen displays a list of all available forms.
3. Select the Form ID of the form you wish to download. If the form is a document, a gray dialog box appears.
4. Select Open to view the form.
   - OR -
   Select Save to save the form to your computer.

Note: The software application associated with the form will initiate the opening of the form. For example, if the form is a Microsoft Word document, Microsoft Word on your desktop will initiate the opening of the form. This is also true with Microsoft Excel or Adobe Acrobat forms.
5. Select the <Back button to return to the previous screen.

**TIP:** The New Contracting Entity? column indicates whether the form is required for submission by Contracting Entities new to the School Nutrition Programs.
Claims

The TX-UNPS Claims component allows Contracting Entities to submit monthly online reimbursement claim requests to the State, review claim rates, and review historical payment summaries.

About the Claims Process

A Contracting Entity submits a reimbursement claim to the State for every month in which one or more sites participates in the School Nutrition Programs. Contracting Entities may enter Contracting Entity and site information into the monthly claim form beginning at the first of every month. Contracting Entities have sixty days from the last day of the claim month/year to submit an original claim.

**Note:** Claims cannot be created for a month if there is no approved Application Packet in effect for that period. If you cannot access claims for a specific month, be sure your Application Packet has been approved. If your Application Packet has been approved and you still cannot enter a claim for a specific month, contact the TX-UNPS Help Desk to validate the effective date of the Contracting Entity application and Site application.

At the time claims are submitted, they are checked by the system to ensure they conform to established business rules governing reimbursement claim eligibility and approval. The following table identifies the steps related to submitting and processing a claim:

<table>
<thead>
<tr>
<th>Performed by</th>
<th>Task</th>
</tr>
</thead>
</table>
| **Contracting Entity** | Complete the Claim for Reimbursement form(s) for the selected claim month.  
                        | Submit error-free claim to the State for processing.                  |
| **State**          | Review and approve claim.                                           
                        | Select claim for inclusion in the payment process.                   
                        | Send payment information to the appropriate State agency for payment. |
Claims Menu

Contracting Entities use the Claims Menu to access claim functions, view current claim rates, or view payment summaries.

Claim Dates

Various dates are used in the TX-UNPS claims function. The following table identifies and describes the dates used:

<table>
<thead>
<tr>
<th>Date</th>
<th>Description</th>
</tr>
</thead>
<tbody>
<tr>
<td><strong>Date Created</strong></td>
<td>This date is set to the current system date when the claim is initially created.</td>
</tr>
<tr>
<td><strong>Date Modified</strong></td>
<td>This date is set to the current system date when the claim is initially created and each time the claim is saved.</td>
</tr>
<tr>
<td><strong>Date Received</strong></td>
<td>This date is typically set to the date the claim was first submitted to the State. The date can be changed by an authorized State user via the Internal Use Only section of the claim form until the claim has been processed for payment. The value of this field is used to validate the 60 day claim rules.</td>
</tr>
<tr>
<td><strong>Date Accepted</strong></td>
<td>This date is set to the current system date each time the claim is submitted for payment and contains no errors. If errors are detected during the submit process, the date is not set. These claims are identified with a status of “Accepted”. Accepted claims can be modified until they are included in a payment batch.</td>
</tr>
<tr>
<td><strong>Date Processed</strong></td>
<td>This is the date that the claim was added by the State into the batch payment process (via Payment Tracking in the Accounting module). Once the claim has been added to a batch (i.e., “batched”), it cannot be modified. These claims are identified with a status of “Accepted*” until the batch process has completed. When the batch process is completed, the status of the claim is “Processed”. If a change is required to a claim that has a status of “Accepted*” or “Processed”, a revised claim must be entered into the system.</td>
</tr>
</tbody>
</table>
Claim Entry

The Claim Entry function is used to enter, modify, and view claims. The system provides the ability to submit claims at the Contracting Entity or site level. Original and upward adjusted claims cannot be submitted if the received date is more than 60-days since the last day of claim month/year. In order to create a claim in a given month, an approved Application Packet must be in effect for the period.

**WARNING:** Only Contracting Entities authorized by the State can submit site-level claims. Please contact the TX-UNPS Help Desk if you are interested in site-level claiming.

To access Claim Entry

1. On the blue menu bar, select **Claims**. The Claims menu screen displays.
2. From the Claims menu, select the type of claim you would like to enter (e.g., SNP, SSO or FFVP). The Claim Year Summary screen displays.
   
   If a Contracting Entity has already been selected, the Claim Summary screen displays.
   
   If no Contracting Entity has been selected, use the Contracting Entity Search to search for and select a Contracting Entity.

3. Select the Claim Month you would like to submit a claim. The Claim Month Details screen displays.

**Note:** The current school year is the default year if no other school year has been selected. For help selecting a new school year, see *Selecting a School Year*.
Claim Year Summary

The Claim Year Summary summarizes information regarding the claim for each claim month in the designated year:

- **Adj Number**: identifies the number of revisions associated with the claim. Each revision must be re-processed by the state.
- **Claim Status**: identifies the current status of the claim.
- **Date Received**: identifies the date the system initially received the claim submission. Note: the State has the authority to modify this date.
- **Date Processed**: identifies the date the claim was included in the payment batch process.
- **Earned Amount**: identifies the current value of the claim.

**Figure 37: Claim Month Details Screen – Example of Non-Processed Claims**

**Note:** Claims can be modified UNTIL they have been added by the State into the batch payment process. Once a claim has been included in a payment batch, the status of the claim is “Accepted*” until the batch process has completed. When the batch process has completed, the status of the claim is “Processed”.

**Claim Site List**

If the Contracting Entity has been identified by the State as performing site-level claiming on the Contracting Entity Profile screen, the Contracting Entity would use the Claim Site List screen to select the site whose claim to add, view, or modify.

**Note:** Only active sites will have a link to open the Claim for Reimbursement screen.
To add an original claim

Claims can be entered for each eligible month in the school year. Eligible months are determined based on an approved Application Packet and the designated application effective date (identified by the State in the Internal Use Only section of the Contracting Entity and Site applications).

1. From the Claims menu, select the type of claim you would like to enter (e.g., SNP, SSO or FFVP). The Claim Year Summary screen displays.

2. Select the desired Claim Month. The Claim Month Details screen displays.

3. Select **Add Original Claim** button. If the Contracting Entity is performing CE-level claiming, the Claim for Reimbursement screen displays.

   If the Contracting Entity is performing site-level claiming, the Claim Site List screen displays. Under Actions, select **Add** to the left of the Site Name you wish to add an original claim. The Claim for Reimbursement screen displays.

4. Enter claim information for all enrolled programs. Only the programs identified in an approved Application Packet with the appropriate effective date will be available for data entry.
5. Select **Save**. The Claim Month Details screen displays.

6. Review the information.

   To make a modification or correction to the claim, select the `<Back` button to return to the Claim for Reimbursement screen.

   To submit the claim, check the Certification box and select the **Submit for Payment** button.

   **Note:** When the **Submit for Payment** button is selected, the system performs additional edit checks (e.g., 60 day rule, etc.). If the system identifies errors, the errors must be corrected before the user can submit the claim for payment.

   **WARNING:** An original claim cannot be submitted by a Contracting Entity if the received date is more than 60-days since the last day of claim month/year. For exceptions to this rule, contact the TX-UNPS Help Desk.

---

### To modify an un-processed claim

Claims can be modified as many times as desired until the claim has been submitted and processed by the State for payment distribution.

1. From the Claims menu, select the type of claim you would like to view (e.g., SNP, SSO or FFVP). The Claim Year Summary screen displays.

2. Select the desired Claim Month. The Claim Month Details screen displays.

3. If the Contracting Entity is performing CE-level claiming, select **Modify**. The Claim for Reimbursement screen displays.

   If the Contracting Entity is performing site-level claiming, the Claim Site List screen displays. Under Actions, select **Modify** to the left of the Site Name you wish to view.

   The Claim for Reimbursement screen displays

   ![Figure 40: Claim Month Details screen – Modify an Un-processed Claim](image)

   **Note:** The Summary link is not active until a claim has been submitted with no errors.
4. Update claim information.

5. Select Save. The Claim Month Details screen displays.

6. Review the information.

To make a modification or correction to the claim, select the <Back button to return to the Claim for Reimbursement screen.

To submit the claim, check the Certification box and select the Submit for Payment button.

**Note:** When the Submit for Payment button is selected, the system performs additional edit checks (e.g., 60 day rule, etc.). If the system identifies errors, the errors must be corrected before the user can submit the claim for payment.

**WARNING:** An original claim cannot be submitted by a Contracting Entity if the received date is more than 60-days since the last day of claim month/year. For exceptions to this rule, contact the TX-UNPS Help Desk.
To revise a processed Contracting Entity-level claim

Claim revision resulting in a downward adjustment may be submitted at any time. Claim revisions resulting in an upward adjustment may be submitted if the date of submission is within 60 days of the last day of the original claim month. Revised claims must be re-processed by the State regardless of their original status.

1. From the Claims menu, select the type of claim you would like to enter (e.g., SNP, SSO or FFVP). The Claim Year Summary screen displays.
2. Select the desired Claim Month. The Claim Month Details screen displays.
3. If the Contracting Entity is performing CE-level claiming, select Add Revision button. The Claim for Reimbursement screen displays.

![Figure 41: Claim Month Details Screen – Add Revision](image)

If the Contracting Entity is performing site-level claiming, the Claim Site List screen displays. Under Actions, select Revise to the left of the Site Name whose claim you wish to revise. The Claim for Reimbursement screen displays

**Note:** The Add Revision button will only display on Claim Month Details screens that currently have no claims created.

4. Make any necessary changes to the claim.
5. Select Save. The Claim Month Details screen displays.
6. Review the information.

To make a modification or correction to the claim, select the <Back button to return to the Claim for Reimbursement screen.
To submit the revised claim, check the Certification box and select the **Submit for Payment** button.

**Note:** Revised claims must be re-processed by the State regardless of their original status.

**WARNING:** An upward adjusted claim cannot be submitted by a Contracting Entity if the received date is more than 60-days since the last day of claim month/year. For exceptions to this rule, contact the TX-UNPS Help Desk.

   The Claim for Reimbursement screen displays
4. Select Delete in the Edit menu in the upper-right corner.
5. The system transfers you to the bottom of the screen and a warning message is displayed.
6. Select the Delete button at the bottom of the page. A confirmation message displays.
7. Select Finish.
**WARNING:** Once the claim has been deleted, it is permanently removed from the application and cannot be restored. Use caution before deleting a claim.
**Claim Rates**

The system provides a screen to view claim for reimbursement rates by year. The rates displayed apply for the rate year defined at the top of the page. Meals are reimbursed based on the designated rate established by the USDA. Annually, the reimbursement rates are entered by authorized TDA staff through the Claim Rate Maintenance screens in the Maintenance and Configuration module.

**To access Claim Rates**

1. From the Claims menu, select **Claim Rates**. The Claim Rates screen displays.
2. Use the `<Back` button to return to the Claims menu.

**TIP:** The Claim Rates screen defaults to the designated school year identified at the top right of the screen. To view the claim rates for a previous year, see **Selecting a School Year**.
Payment Summary

The Payment Summary screen provides a list of all payment batch schedules processed for the Contracting Entity for the selected school year. Each schedule number and process date represents payments that have been scheduled. Payments from payment batches are grouped by program and sorted by date.

To access Payment Summary

1. From the Claims menu, select **Payment Summary**. The Payment Summary List screen displays.
2. Use the <Back button to return to the Claims menu.

To view a Payment Summary

1. From the Claims menu, select **Payment Summary**. The Payment Summary List screen displays.
2. Select the payment record you wish to view. The payment summary information displays for all payments included in the payment batch.
3. Select the <Back button to return to the previous screen.

Reports

Standard Reports for the School Nutrition Programs are available to users through the TX-UNPS Reports component.

About Reports

The Reports component of the SNP module enables users to run, view, and print reports containing data maintained within TX-UNPS. The Report List contains all reports available within the SNP module. Once a user selects a particular report, TX-UNPS may prompt the user for additional parameters information.

Access to Reports is generally provided to authorized State users to help review and manage statewide data. The Reports menu displays only reports to which the user has access.
Security

System-authenticated users (i.e., users that are logged on) may change their password through the Change Password feature.

Security menu

The Security menu option within the School Nutrition Programs module is the access point to the Change Password and User Manager functions.

To access the Security menu

1. Select Security on the blue menu bar at the top of the page. The Security menu displays.
2. Select a security item to access that security function.

To access Change Password

1. On the blue menu bar, select Security.
3. Enter your New Password.
4. Re-Enter your New Password.
5. Select Save. A confirmation message displays.
6. Select <Edit to return to the Change Password screen you just modified.
   -OR-
   Select Finish to return to the Security menu.

Note: Security configuration settings require a password ten (10) to twelve (12) characters in length. Please note that the password must be at least ten (10) characters in length. The password must contain at least one number, one letter, and one special character (e.g., !, ?, /). Passwords are case sensitive.
Application Packet Process

This section of the manual provides information on how the State can review and approve Application Packets through TX-UNPS.

**Note:** For security purposes, users can only view Contracting Entities to whom they are associated.

**Submitting an Application Packet**

All new enrollment or renewal enrollment applications are initially created with a status of “Pending Validation”. Once the Application has been saved, the system validates the business rules and the application’s status is set by the system to either “Error” (if any errors exist) or “Not Submitted” (no errors, but the Application Packet has not been submitted).

Only complete Application Packets that have no errors can be submitted to the State. To submit a completed Application Packet, the Contracting Entity would select the **Submit for Approval** button. This simulates sending a completed Application Packet in the mail. Application items are placed in a view-only mode for the Contracting Entity.

An Application Packet can be submitted to the State (i.e., the **Submit for Approval** button is enabled) only if the following conditions have been met:

- The Contracting Entity Application must contain no errors.
- At least one Site Application must exist and contain no errors.
- If the Contracting Entity is using a Food Service Management Company (FSMC), at least one contract must exist and contain no errors.
- All items in the Checklist must be submitted (submitted checkbox checked and date submitted is entered).
- The Contracting Entity is not closed.
Note: Once an application packet has been submitted by the CE to the State, the system will automatically send an email to the assigned State Application Packet Consultant. A copy of the email is also to the Contracting Entity’s Child Nutrition Director as specified on the Contracting Entity Application.

Once the Contracting Entity has submitted the Application Packet, the State will review each item in the submitted Application Packet. The State may approve each application item, deny an application item, or return the application item and its respective Application Packet back to the Contracting Entity for correction.

If the Application Packet is denied or returned to the Contracting Entity for correction, the State will provide comments within the respective Application Packet item as to why the application was denied or what needs to be corrected in order to re-submit the Application Packet.

Note: Once an application packet has been approved, denied, or returned by the State, the system will automatically send an email to the Contracting Entity’s Child Nutrition Director, as specified on the Contracting Entity Application, providing status of the packet.
Application Packet Statuses

Statuses are used to manage the workflow of the Application Packet. Each packet can have only one status at a time.

- **Not Submitted**
  - The packet has a status of “Not Submitted” when the packet is created for the first time or when any of the packet items are created, revised, or modified, but the Application Packet has not been submitted to the State.

- **Submitted**
  - The packet has a status of “Submitted” when the Contracting Entity uses the Submit for Approval button on the Application Packet screen to submit the error-free packet to the State for review.
  - If the packet status is “Submitted”, the entire packet becomes read-only to the Contracting Entity.
  - All applications that are “Submitted” must ultimately be “Approved”, “Denied”, or “Returned for Correction” or “Withdrawn”.

- **Approval Recommended (i.e., First Level Approved)**
  - When a Contracting Entity is new to the program, the system will require two levels of approval. This status represents the first level of approval performed by the State before a final approval is granted.
  - The Application Packet screen will display the First Approval button when the first level approval is required. After the button has been selected, this button will not display; however, the Approve button will be displayed.

- **Approved**
  - The packet has a status of “Approved” when the State has approved each packet item AND has selected the Approve button on the Application Packet screen.

- **Denied**
  - The packet has a status of “Denied” when the State selects the Deny button on the Application Packet screen.
  - When a packet is “Denied”, the packet remains view-only and nothing in the packet can be modified. The only way to edit items in a denied packet is for the State to change the status of the packet to something other than “Denied”.
  - By denying an Application Packet, the status of all items within the packet is automatically set to “Denied”.
  - An “Approved” packet cannot be “Denied”.

- **Returned for Corrections**
  - The packet has a status of “Returned for Corrections” when the State selects the Return button on the Application Packet screen.
• This status unlocks the packet for the Contracting Entity and sets the status back to “Not Submitted”.
• An “Approved” packet cannot be “Returned for Corrections”.

  o Withdrawn

• The packet has a status of “Withdrawn” when the Contracting Entity or State selects the **Withdraw** button on the Application Packet screen.
• An Application Packet with a status of “First Level Approved” can be withdrawn.
• An Application Packet with a status of “Approved” packet cannot be “Withdrawn”. If an application has been “Approved”, it can only be “Cancelled” or “Terminated” by the State (see *Application Packet* section).
Application Statuses

Statuses are used to define the current state of an application packet item. Each application can have only one status at a time.

- Pending Validation
  - The application has a status of “Pending Validation” when the application has not yet been opened or saved.

- Error
  - The application has a status of “Error” if it has failed system validation rules. Data entered is maintained.

- Not Submitted
  - The application has a status of “Not Submitted” when the application is saved without error, but the Application Packet has not been submitted to the State.

- Submitted
  - The application has a status of “Submitted” when the Contracting Entity has submitted the Application Packet to the State for review (i.e., the Contracting Entity has selected the Submit for Approval button).
  - Any application that is marked “Not Submitted” is changed to “Submitted”
  - The Application Packet becomes read-only to Contracting Entity users.

- Approved
  - The application has a status of “Approved” when the State has approved the application (i.e., the State selected “Approved” in the Internal Use Only section of the form).

- Denied
  - The application has a status of “Denied” when the State has denied the application (i.e., the State selected “Denied” in the Internal Use Only section of the form).
  - If the application is “Denied”, it can no longer be modified by the Contracting Entity. Only the State can change the status of the application.
  - When setting the application status to “Denied”, the State should enter a comment in the Comments to Contracting Entity field explaining the reason the application was denied.

- Returned for Correction
  - The application has a status of “Returned for Correction” when the State has identified errors in the application and has selected “Returned for Correction” in the Internal Use Only section of the form.
  - When setting the application status to “Returned for Correction”, the State should enter a comment in the Comments to Contracting Entity field explaining the reason the application was returned.
• Withdrawn
  • The application has a status of “Withdrawn” when the State has selected “Withdrawn” in the Internal Use Only section of the form.
  • If the Application Packet has ever been approved, there will not be an option to withdraw.
Claim Statuses

Statuses are used to define the current state of a claim. Each claim can have only one status at a time.

- **Not Eligible**
  - The claim has a status of “Not Eligible” when there is an application condition that is preventing claiming for the selected month (e.g., Contracting Entity or site is not authorized on the Application Packet to operate for the selected month or the Application Packet status is not “Approved”).

- **Incomplete**
  - The claim has a status of “Incomplete” when the claim has been created in the system but the Save button was never clicked (e.g., timeout, logout, etc.). The system saves the data that has been entered, but no edits have been performed.

- **Error**
  - The claim has a status of “Error” when the claim has been submitted and has business rule violations.

- **Pending**
  - The claim has a status of “Pending” when the claim has been saved and on-line edits have been performed, but the claim has not been submitted and validated with additional edits (e.g., 60 days edit, etc.).
  - Applicable only when the Contracting Entity is participating in CE-level claiming.

- **Validated**
  - This site claim has a status of “Validated” when the site claim has been entered, validated, and contains no errors.
  - Applicable only when the Contracting Entity is participating in site-level claiming.

- **Accepted**
  - The claim has a status of “Accepted” when the claim has passed all on-line edits and additional edits (e.g., 60 days edit, etc.), and is ready to be included in the payment tracking process.
  - The claim can still be modified. A revision is not necessary until the claim is included by the State in a batch payment process.

- **Accepted***
  - The claim has a status of “Accepted***” when the claim has been selected by the State for inclusion in the batch payment process; however, the batch process has not run.
  - The claim cannot be modified. If the claim requires a change, a revised claim must be submitted.

- **Processed**
  - Claim has been fully processed by TDA and has been sent to the State’s Accounting Office for disbursement of funds.
