This Policy Alert is to inform SFSP contractors that the provisions of the Lugar Pilot have been extended through the end of the 2004 Program Year.

In April, we notified contractors via Notice SFSP 2004-11 that the Lugar Pilot was extended through June 30, 2004. On June 30 the President signed legislation extending the provisions of the pilot through Program Year 2004.

If you are participating in the Lugar Pilot, you will continue to do so under the current policies and procedures until the end of your 2004 SFSP operation.

The Child Nutrition Reauthorization Bill of 2004 has made some additional changes and you will be notified about these changes in the near future.

Call your designated Area Program Office if you have any questions.
