The United States Department of Agriculture (USDA) Child Nutrition recipe publications include the following:

*Child Care Recipes, Food for Health and Fun;*  
*A Toolkit for Healthy School Meals: Recipes and Training Materials;* and  
*Quantity Recipes for School Food Service (Program Aid Number 371)*

These publications do not contain the current yields of food items listed in the Food Buying Guide. The USDA is currently updating these publications to reflect the correct yields. Until the publications are updated, programs may continue to use the yield data on the current recipe cards.

Reminder: The Food Buying Guide may be accessed via the USDA web site at:  
or Special Nutrition Programs (SNP) website at:
