The SNP Training web site will be down from October 12-17, 2006 to perform a software upgrade. During this time, you will not be able to access the SNP Training Learning Center to check for upcoming classes, register or cancel a seat at an upcoming event. For this reason, please arrange to use the SNP Training Learning Center before October 12, 2006, or plan to wait until after October 17, 2006. If you need to change your reservation status for a class during the upgrade, you may either:

- call the SNP Hotline (1-800-982-3261) and select Option 3 to leave a detailed message and phone number;
- or fax a detailed explanation of your request to the SNP Training Unit at (512) 371-9692.

Please contact the SNP Training Unit at 512-420-2590 or 1-800-982-3261 (select Option 3) if you have questions about registration during the training web site upgrade.
