A new food safety resource, *A Biosecurity Checklist for School Food Service Programs: Developing a Biosecurity Management Plan*, is now available to help schools better prepare for a threat to the food supply. It contains instructions on how to develop a biosecurity management plan along with a series of checklists recommending tasks for schools to address as a way to prepare for a biosecurity threat or emergency.

This publication is currently available only online on the food safety page of the Healthy School Meals Resource System (HSMRS) website accessed at:
