POLICY NOTICE

Date: January 21, 1994    Reference #: 94-10
To: Special Nutrition Program Contractors
Subject: Revised Frankfurter Fact Sheet

Attached is a revised frankfurter fact sheet which includes crediting information on frankfurters, bologna, knockwurst, and vienna sausage. This revision reflects changes in the types of products which are allowable for an ounce per ounce credit toward meal pattern requirements.

Previously, only frankfurters without binders or extenders were eligible to receive an ounce per ounce credit. This has been changed to allow products containing fortified vegetable protein products (VPP) within certain limits specified in regulations.

Please contact this office if you have questions concerning this fact sheet.
