Policy:

- **7 CFR 247.10**

CSFP Contracting Entities (CEs) must distribute food packages to CSFP participants *every month (or bi-monthly)* in **accordance with the CSFP guide rate established by the Food and Nutrition Service (FNS)**.

CSFP GUIDE RATE

CSFP Food packages provide nutritious USDA Foods to supplement the diets of low-income elderly but are not intended to provide for total dietary needs.

FNS determines what USDA Foods to include in the food packages per the recommendations of the Dietary Guidelines for Americans.

Known as the CSFP Maximum Monthly Distribution Rates OR "CSFP Guide Rates"

- Identify the 'Best If Used By Dates' (BIUB)
- TDA Recommends: Distribute 2 UHT milks per CSFP package.
- Communicate with TDA in advance, if any inventory cannot be distributed before BIUB.

Menu Development

Things to consider:

Shelf Life & Product Dating

- BIUB Dates

FIFE, FIFO

- First In, First Expiration (multi food warehouse inventory,)
- First In, First Out

Menu Variety

- Month over month
- Within each food package

(Inventory permitting)

Builds to deplete items

- Check Inbound shipments

Multi Food Warehouse

Shipments received: Sales Order Number Begins with 1000xxx VS. direct deliveries 5000xxx

Short turnaround time; BIUB dates & FIFE

No requirement to give an advance delivery appointment

Running Out of Items During Builds

- Track boxes by menu
- Menu Development- build new menu per guide rate & inventory on-hand

Menu Development

Review BIUB, FIFE dates on CSFP items transferred from another CE and Multifood warehouse.

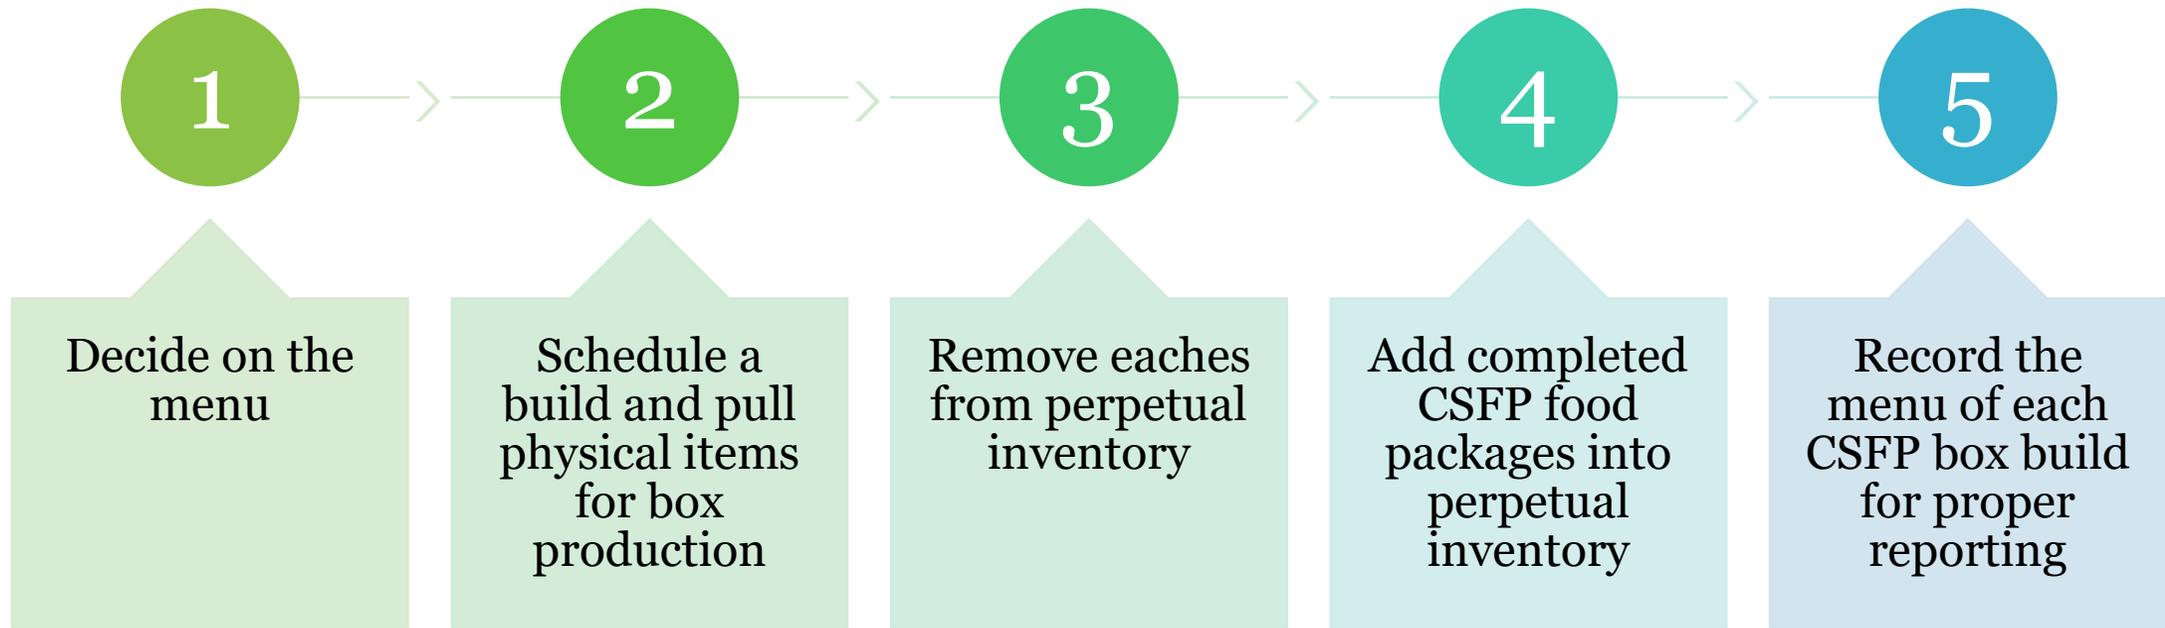

Multifood warehouse items have a shorter shelf life/expiration dates.

Plan ahead: Review inbound shipments by pulling an 'requisition status' report in WBSCM, ordering team cancellation reports, TDA communications

Let TDA's inventory team know if you are running low on inventory needed to complete a complete food package.

Menu Development

Menu Development: CE Sample

Each Menu must meet the CSFP Guide Rate.

If 1 product from the menu changes, must create a new Menu.

Nutrition Benefits of the Commodity Supplemental Food Program

As we age, eating well can make a positive difference in our health and how we feel. Healthy foods and beverages can increase our energy levels, improve digestion, and help prevent chronic disease. The Commodity Supplemental Food Program (CSFP) provides a monthly food package tailored for older adults, age 60 or above, that can help stretch your food dollars and add nutritious foods to your diet for good health.

USDA Foods Fit

CSFP offers a variety of American-grown USDA Foods that can fit into your healthy eating pattern:

- Canned and dried **fruits** – unsweetened or lightly sweetened
- Canned **vegetables** – low sodium or no salt added
- Low fat **dairy** – cheese and shelf stable milk
- Whole **grains** – oats, whole grain pasta, rice, and cereals
- Variety of **proteins** – beans, lean meats, poultry, and fish

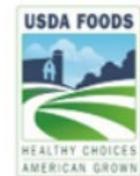

The CSFP food package provides:

- Protein, calcium, iron, vitamins A, C, and D, and other nutrients that promote health
- Low sodium foods to support heart health

If you have special dietary needs, check with your doctor or Registered Dietitian about how these foods can fit into your healthy eating pattern.

Tracking and Reporting: Sites

Things to consider:

CE must maintain knowledge of what items are in each box

Which box menus were distributed?
To which sites?

Which box menus are being stored at sites?

Which box menus are in the warehouse?

How do sites report leftover boxes in storage?

Is your current FNS-153 reporting method capturing this information?

Tracking and Reporting: Sites

- TAFB Created a JotForm for each Site to use and report their monthly box issuance numbers & other additional data information.
- The data then gets sent to the CE via a spreadsheet
